Dragons Blood

In Folk Magic, Spell-Craft, and Occultism

Dragon's Blood resin is both a lucky charm & an incense for warding off evil & bringing good luck in money & love. Powered Dragon's Blood, maybe burned on charcoal, & many claim that this Cleanses the Home & rids the premises of evil. It is said to be particularly good when moving into a new house & it may be mixed w/ Camphor resin for this purpose. Dragon's Blood powder is also used by those who wish to receive love in their lives. They write their lover's name on a small square of brown paper, cross it with their own name, fold Dragon's Blood powder into the name-paper, and throw the packet onto glowing charcoal while saying their wishes. We make no claims for Dragon's Blood...We simply make available information we have gathered for you :)

HOW CAN I CLEAN MY GLASS PIPE OR BONG?

There are many different products on the market specifically for this purpose, (Agent Orange, Purple Power etc.) but there are also many household products that you may find useful. Some guide lines to remember are, use close to boiling water to soften the resin. Use a strong Iso 70% or stronger. Once the hot water has been rinsed through, fire in some rock salt with some alcohol (ISO), seal off your holes and shake about. Older dirtier pieces make take several cleanings. Or soaking overnight....for an overnight soak , submerge the piece in a mixture of hot water, ISO and rock salt. Other products that have been used are dish washing detergent, or oxyclean. Once all done you can rinse your piece with lemon juice to remove all the other smells and residuals. Please be careful as the resins coming from your piece will stain most materials if slopped or spilled on them. Enjoy your nice clean glass!
